

# COSMETICS REGULATION

## (EC) No 1223/2009 – WHAT IS ESSENTIAL TO KNOW?

May 06, 2020

The training provides a comprehensive insight into the regulatory framework of Regulation (EC) No 1223/2009 on cosmetic products and Regulation (EU) No 655/2013 establishing common criteria for the substantiation of claims relating to cosmetic products. In addition, the effects on cosmetic formulations and packaging caused by other legislation (REACH Regulation (EC) 1907/2006, POP Regulation (EU) 2019/1021; Packaging and Packaging Waste Directive 94/62/EC) are considered. Furthermore, the criteria for obtaining EU-compatible eco-labels / eco-labels for cosmetic products are presented. The relevant aspects of the regulations are translated and communicated in a simple and understandable way. The participants should be enabled to apply their acquired knowledge in their daily work.

### CONTENT

09:00 am – 10:30 am

---

**Overview of the legal basis of cosmetic products in the EU/EEA** | EU/EEA as a legal area/Competent authorities/Overview of the contents of the Cosmetics Regulation (EC) No 1223/2009
